INTRODUCTION

Use this guide to replace a faulty service cover on your HP Envy dv7t-7200 if the back cover has been broken, damaged, or will not stay on any longer.

🔧 TOOLS:

- Phillips #1 Screwdriver (1)

This document was generated on 2020-11-28 06:20:14 AM (MST).

Step 1 — Battery

⚠ Turn the power off and disconnect all cables and cords from the laptop.

● Place the computer on its top on a flat surface with the hinges facing away from you.

Step 2

● Slide the battery release latch to the left which is located on the right-hand side of the battery.

This document was generated on 2020-11-28 06:20:14 AM (MST).
Step 3

- Tilt the battery away from you and lift out.

Step 4 — Service Cover

- Using a Phillips #01 screwdriver, remove the Phillips PM2.5×5.5 screw on the service cover.

- ⓘ This screw does not come out of the service cover completely once loosened.

Step 5

- Slide the service cover toward the front of the laptop.

- Lift the service cover to remove it from the laptop.

To reassemble your device, follow these instructions in reverse order.
