INTRODUCTION

This guide will show how to replace the printer head for the printer.

This document was generated on 2020-11-28 06:25:46 AM (MST).

Step 1 — Printer Head

- Open the printer head cover door by pulling the cover door.

- Power on the printer. This will move the print head to the left so you can access it.

- Unplug the power cable from the back of the printer.

- ⓘ Do not power down the printer using the power button, as this will cause the printhead to move back to the right, making it incaccessible.

Step 2

- Locate the printer head on the left side of the printer.

Step 3
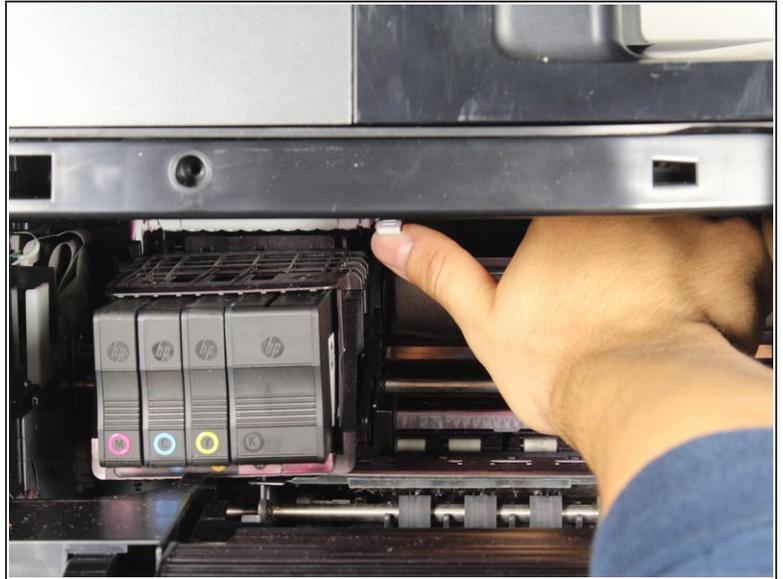

- Pull the white plastic tab on the right of the printhead toward you on an upward swing to unlock the printhead.

Step 4
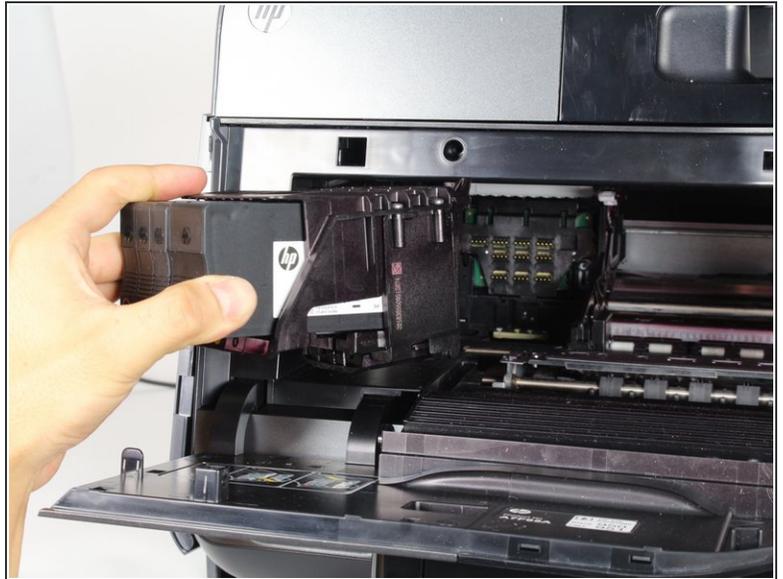

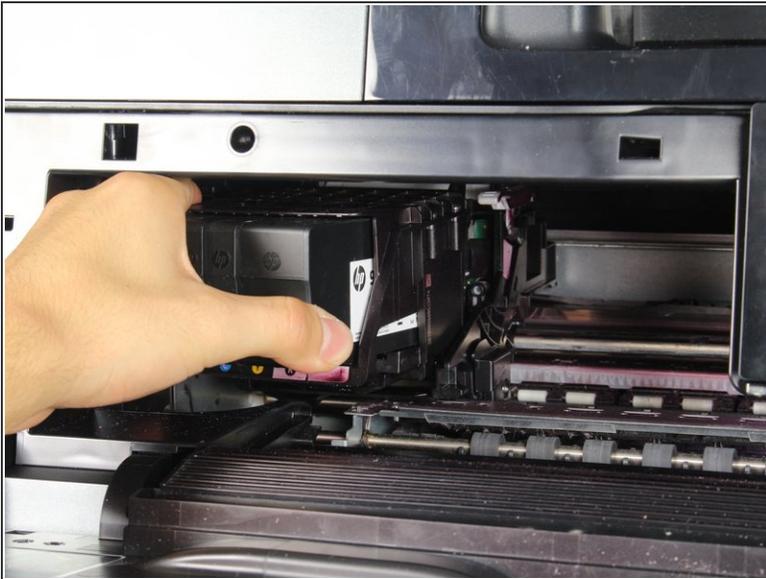

- Gently pull out the printer head.

To reassemble your device, follow these instructions in reverse order.
