# INTRODUCTION

In this guide, we will show you how to remove and replace the Palm Rest.

## TOOLS:

- [Pro Tech Toolkit](#) (1)
-

## Step 1 — Turning Over the PC

**⚠ WARNING:** Before working inside your computer, read the safety information that shipped with your computer and follow the steps in [Before Working Inside Your Computer](#). After working inside your computer, follow the instructions in [After Working Inside Your Computer](#). For more safety best practices, see the regulatory compliance home page.

- Close the display and turn the computer over.

## Step 2 — Loosen the screws

- Loosen the captive screws that secure the base panel to the computer base.

### Step 3 — Releasing the Tabs

- Using a plastic scribe, gently release the tabs that secure the base panel to the computer base.

### Step 4 — Disconnecting the Battery Cable

- Disconnect the battery cable from the battery-cable connector.
- Turn the computer over.

## Step 5 — Power Button

- Press and hold the power button for 5 seconds to ground the system board.

## Step 6 — Connect the Battery Cable

- Connect the battery cable to the battery-cable connector.

## Step 7 — Aligning the tabs

- Align the tabs on the base panel with the slots on the computer base and snap the base panel into place.

## Step 8 — Tighten the screws

- Tighten the captive screws that secure the base panel to the computer base.

## Step 9 — Removing the Screws

**⚠ WARNING:** Before working inside your computer, read the safety information that shipped with your computer and follow the steps in [Before Working Inside Your Computer](#). After working inside your computer, follow the instructions in [After Working Inside Your Computer](#).

- Remove the screws that secure the solid-state drive bracket to the solid-state drive assembly.

## Step 10 — Peel off Computer Base Tabs

- Using the pull tab, pivot the solid-state drive bracket and peel off the bracket from the tabs on the computer base.

## Step 11 — Disconnecting the Solid-State Drive Cable

- Using the pull tab, disconnect the solid-state drive cable from the system board.

## Step 12 — Removing the Solid-State Drive

- Remove the screws that secure the solid-state drive assembly to the computer base.

## Step 13 — Lifting the Solid-State Assembly

- Lift the solid-state drive assembly off the computer base.

## Step 14 — Remove the Screw

- Remove the screw that secures the solid-state drive to the solid-state drive assembly.

## Step 15 — Lift the Solid-State Assembly.

- Slide and lift the solid-state drive off the solid-state drive assembly.

## Step 16 — The New Solid-State Drive

- Slide the **NEW** solid-state drive into the slot on the solid-state drive assembly.

## Step 17 — Screw Replacement

- Replace the screw that secures the solid-state drive to the solid-state drive assembly.

## Step 18 — Align the Screws

- Align the screw holes on the solid-state drive assembly with the screw holes on the computer base.

## Step 19 — Replace the Screws

- Replace the screws that secure the solid-state drive assembly to the computer base.

## Step 20 — Connect the Cable to the System Board

- Connect the solid-state drive cable to the system board.

## Step 21 — Align the Screw Holes

- Align the screw holes on the solid-state drive bracket with the screw holes on the solid-state drive assembly.

## Step 22 — Replace the Screws

- Replace the screws that secure the solid-state drive bracket to the solid-state drive assembly.

## Step 23 — Lifting the Latches

- Lift the latches and disconnect the keyboard and keyboard-backlight cables from the system board.

## Step 24 — Remove the Screws

- Remove the screws that secure the palm-rest assembly to the computer base.

## Step 25 — Lift the Computer Base

- Lift the computer base slightly and push the release tabs on the palm-rest assembly until it pops out.

## Step 26 — Turning the Computer Over

- Turn the computer over and open the display as far as possible.

## Step 27 — Prying the Palm-Rest Assembly

- Using a plastic scribe, pry up along the edges of the palm-rest assembly.

## Step 28 — Lift the Palm-Rest Assembly

- Gently lift the palm-rest assembly and turn it over.

## Step 29 — Lift the Connector Latch

- Lift the connector latch and disconnect the power-button board cable from the system board.

## Step 30 — Lift the Palm-Rest Assembly

- Lift the palm-rest assembly off the computer base.

## Step 31 — Removing

- Remove the keyboard.
- Remove the power-button board.
- Remove the status-light board.
- Remove the Touchpad.

## Step 32 — Replacement

- Replace the touchpad.
- Replace the status-light board.
- Replace the power-button board.
- Replace the keyboard.

## Step 33 — Connecting the Power-Button Board Cable

- Connect the power-button board cable to the system board.

## Step 34 — Align the Palm-Rest Assembly

- Align the palm-rest assembly on the computer base and snap it into place.

## Step 35 — Close the Display

- Close the display and turn the computer over.

## Step 36 — Replace the Screws

- Replace the screws that secure the palm-rest assembly to the computer base.

## Step 37 — Connect the Keyboard Cable

- Connect the keyboard cable and the keyboard-backlight cable to the system board.

To reassemble your device, follow these instructions in reverse order.
