---

## INTRODUCTION

This guide will describe and show how to replace ZTE Lever lithium ion battery.

---

### TOOLS:

- [iFixit Opening Tools](#) (1)
  - [Phillips #0 Screwdriver](#) (1)
  - [IFixit Pro Tech Toolkit](#) (1)
-

## Step 1 — Battery

- Remove the SD card and the Sim card from the device.
- ⓘ The Sim and SD cards are not shown here as our device did not come with them.

## Step 2

- Use an iFixit opening tool to separate the back from the device.

## Step 3

- Remove the two 1.6mm Phillips #0 screws from the battery plug cover.
- Remove the cover.

## Step 4

- Disconnect the battery cable from the motherboard with a plastic opening tool.

## Step 5

- Use your hands, or a plastic opening tool, to pry the battery from the phone.

To reassemble your device, follow these instructions in reverse order.
