## INTRODUCTION

In this guide, we will be showing you how to remove the mSATA card.

### TOOLS:

- [Phillips #0 Screwdriver](#) (1)
-

## Step 1 — Removing the Battery

- Disconnect the battery cable from the system board.
  - Remove the screws that secure the battery to the palm-rest assembly.
  - Lift the battery, along with its cable, off the palm-rest assembly.
- i** Turn the computer over, open the display, and press the power button for about five seconds to ground the system board.
- ★** If this is all you are doing Follow Step In Reverse if not Go to Next Step.

## Step 2 — Removing the mSATA card

- Remove the screw that secures the mSATA card to the palm-rest assembly.
  - Slide the mSATA card out of the mSATA-card connector.
- ★** If this is all you are doing Follow Step In Reverse if not Go to Next Step.
