Step 1 — Back Cover

- Remove the screws that secure the back cover to the computer.

Step 2
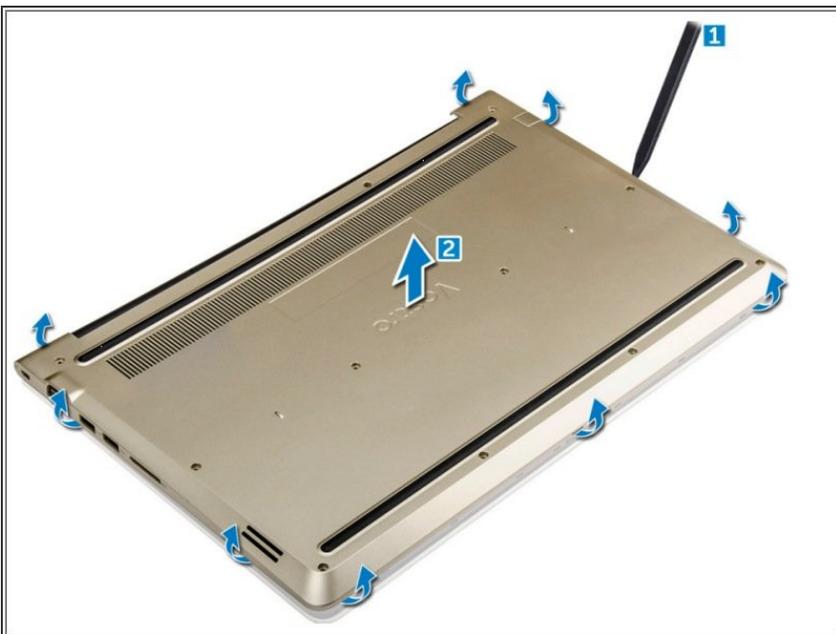

- Using a scribe, pry the edges of the back cover from all sides [1].
  - Lift the back cover from the computer [2].

Step 3 — Battery
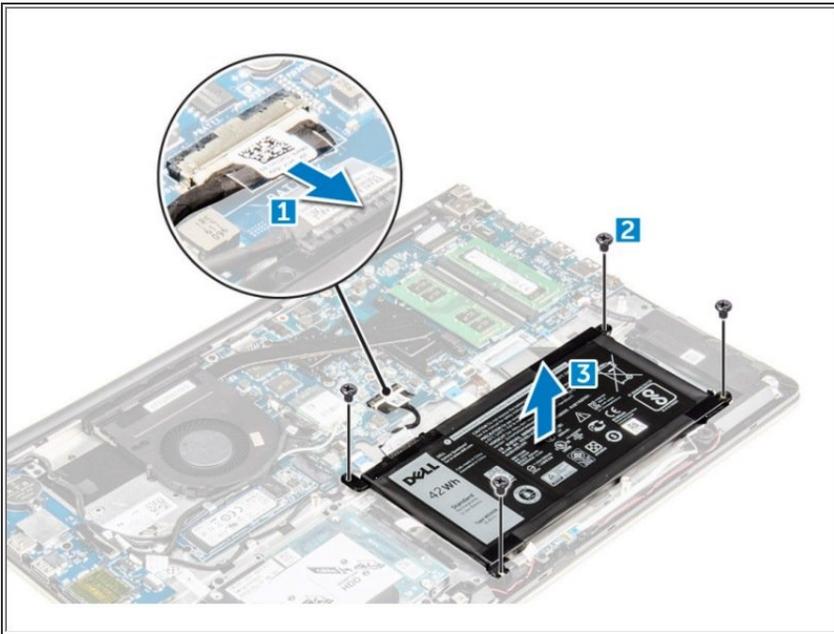

- Disconnect the battery cable from the connector on the system board [1].
  - Remove the screws that secure the battery to the computer [2].
    - Lift and remove the battery from the computer [3].

Step 4 — Memory Module
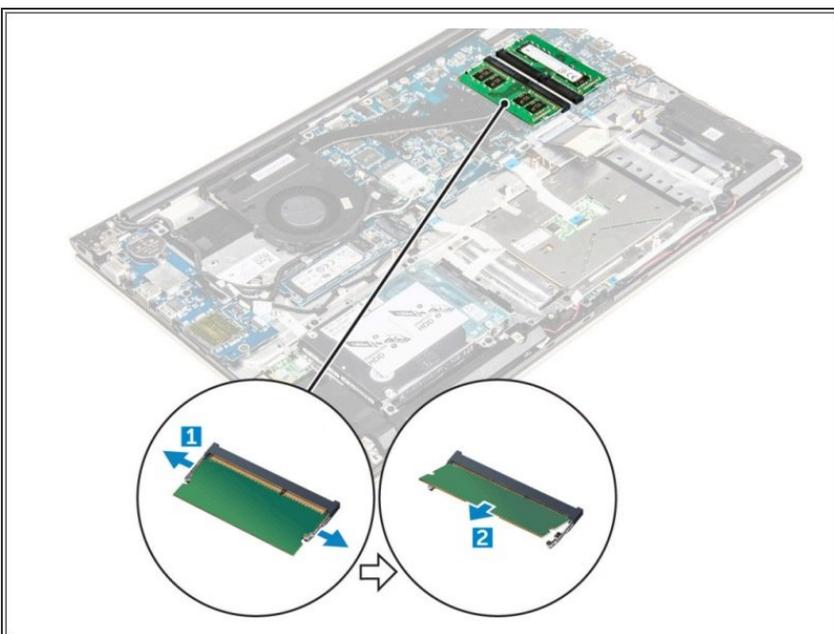

- Pull the retention clips from the memory module until it pops up. [1]
  - Remove the memory module from the connector on the system board. [2]

To reassemble your device, follow these instructions in reverse order.
