# Dell Vostro 1440 Memory Module Replacement

Written By: Johnathan Hammond

## ⚙ TOOLS:

[Spudger](#) (1)

## Step 1 — Battery

- Slide the release latches to unlock the battery.
  - Slide the battery and remove it from the computer.
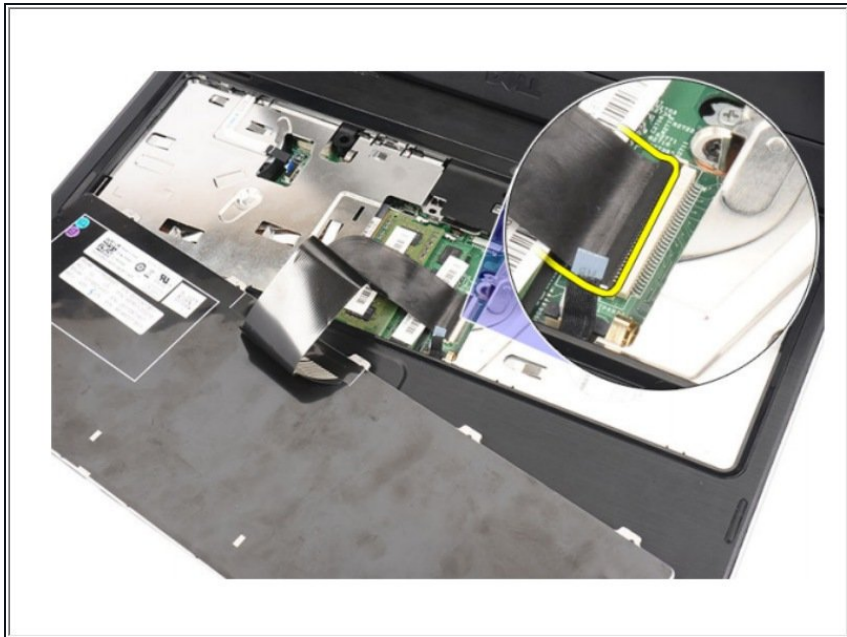

## Step 2 — KeyBoard

- Pry up to release the top four snaps securing the keyboard to the computer.

## Step 3

- Flip the keyboard over and lay it on the palm rest.

## Step 4

- Disconnect the keyboard cable from the system board.

## Step 5

- Remove the keyboard from the computer.

## Step 6 — Memory Module

- Pry the retention clips away from the memory module until it pops up.
  - Remove the memory module from the computer.

To reassemble your device, follow these instructions in reverse order.
