INTRODUCTION

The Asus Rog GL552VW-DH71 comes equipped with a 33whr battery. This guide will teach you how to remove and replace the battery. This will also be the first step in any other repair or replacement of parts on your laptop.

Step 1 — Battery

- Flip the laptop over so the backside is facing upwards.
- Using both hands, slide the lock mechanisms outwards and pull up to remove the battery.

To reassemble your device, follow these instructions in reverse order.
