

# Protocol DURA VR Drone Battery Pack Replacement

Replace the drone power pack in order to get your drone back up and flying properly.

Written By: Kayla Brown

---

## INTRODUCTION

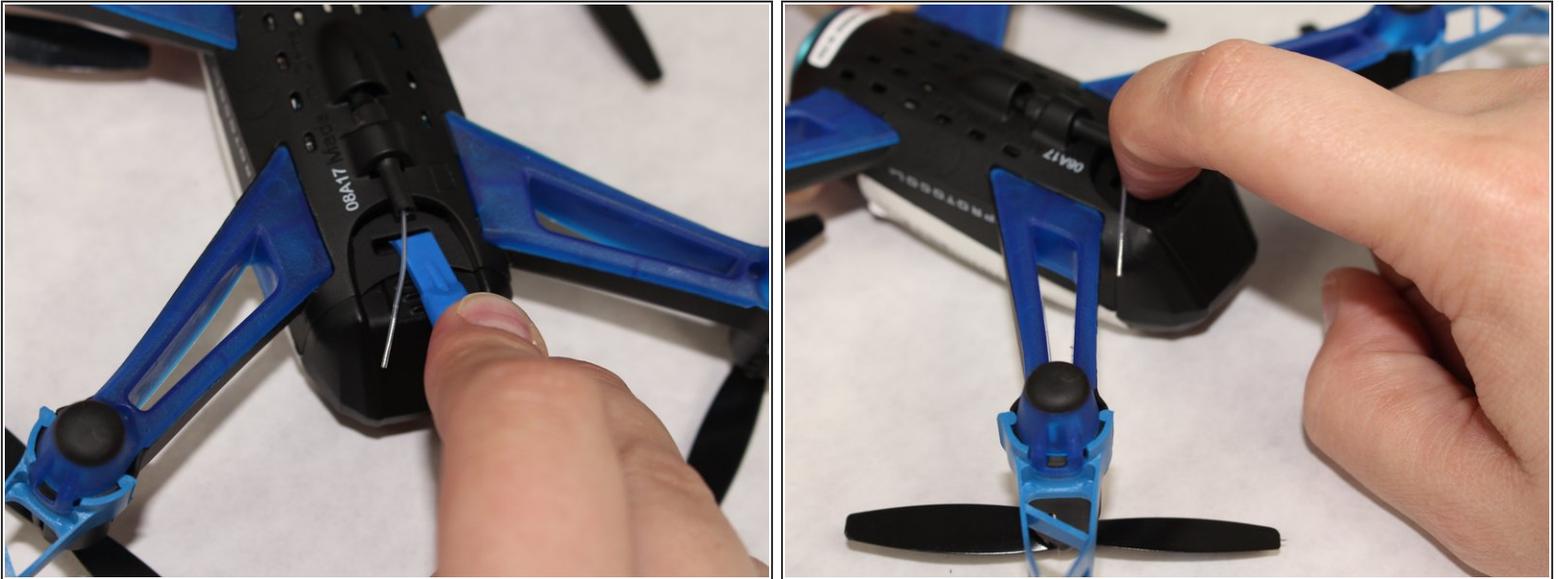

This guide will show you how to properly remove the battery pack from the drone.

---

### TOOLS:

- [iFixit Opening Tools](#) (1)
-

## Step 1 — Drone Battery Pack

- Use either the iFixit opening tool or your fingers to pry open the drone battery.

## Step 2

- Slide the battery pack out of the drone. When replacing be mindful of the antenna as it is easily crushed.

To reassemble your device, follow these instructions in reverse order.
