Step 3 — Keyboard

- Insert the pointy end of the spudger underneath the power button panel and pry upwards to pop off.

- Do the same steps for the other side.
Step 4

- Remove the two Phillips #0 screws.

Step 5

- Flip the laptop over and remove the two Phillips #0 screws.

Step 6

- Insert the pointy end of the spudger underneath the edge of the keyboard and pry upwards to lift up.

- Once lifted, grab the keyboard and pull out to remove.

To reassemble your device, follow these instructions in reverse order.
