Xiaomi Air 12 Speaker Replacement

How to replace your Xiaomi Air 12 speaker system.

Written By: Hannah Kwan

INTRODUCTION

Use this guide to replace the speaker in your Xiaomi Air 12.

🔧 TOOLS:

- iFixit Opening Tools (1)
- T5 Torx Screwdriver (1)

Step 1 — Rear Casing

- Orient the computer so the Xiaomi logo is at the bottom of the device.

Step 2

- Insert the plastic opening tool underneath the top-middle rubber covering and lift upwards to reveal the hidden screw.

Step 3

- Remove the eight 3 mm screws using the Torx T5 driver by inserting the screwdriver into each screw and rotating counterclockwise.
Step 4

- Insert the plastic opening tool into each side of the computer and push the tool downwards to pop open the back cover.
- (i) You will hear popping noises as you remove the cover.

Step 5

- Remove the back of the laptop by gently lifting the casing upwards.
Step 6 — Speaker

- Remove the white and black speaker wires from the black tabs by pulling upwards from the device.

Step 7

- Gently pull the speaker connector out from the connection point using your hand.

Step 8

- Remove the left speaker module by pulling the panel up from the device.

- Repeat the same process for the right speaker module.

- (i) Left and Right speaker modules are denoted by an "L" and "R" respectively.

- (i) There will be a slight adhesive underneath the module.

To reassemble your device, follow these instructions in reverse order.
