

Dell Inspiron 14 3465 Battery Replacement

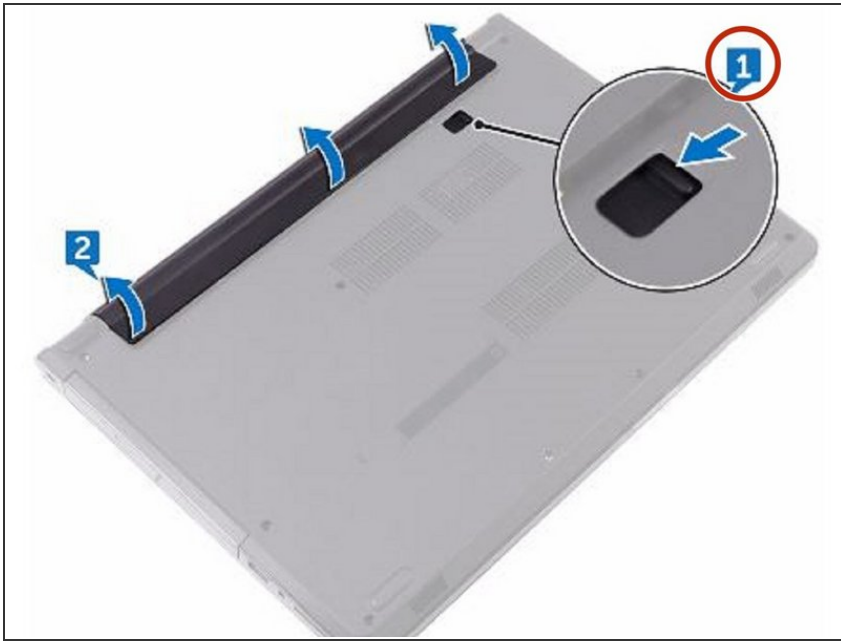

Written By: Terrence15

INTRODUCTION

In this guide, we will show you how to remove and replace the Battery.

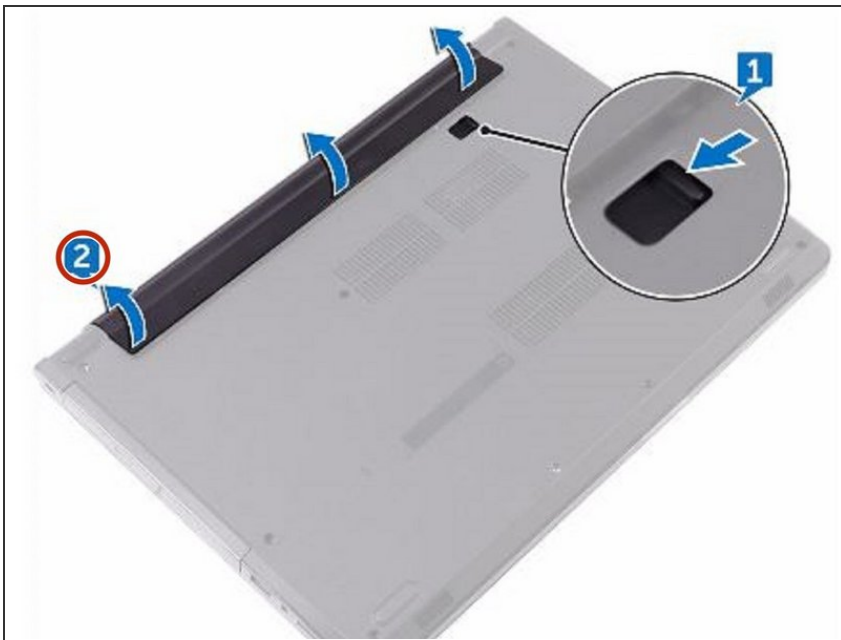

Step 1 — Unlocking the Battery

⚠ WARNING: Before working inside your computer, read the safety information that shipped with your computer and follow the steps in [Before Working Inside Your Computer](#). After working inside your computer, follow the instructions in [After Working Inside Your Computer](#).

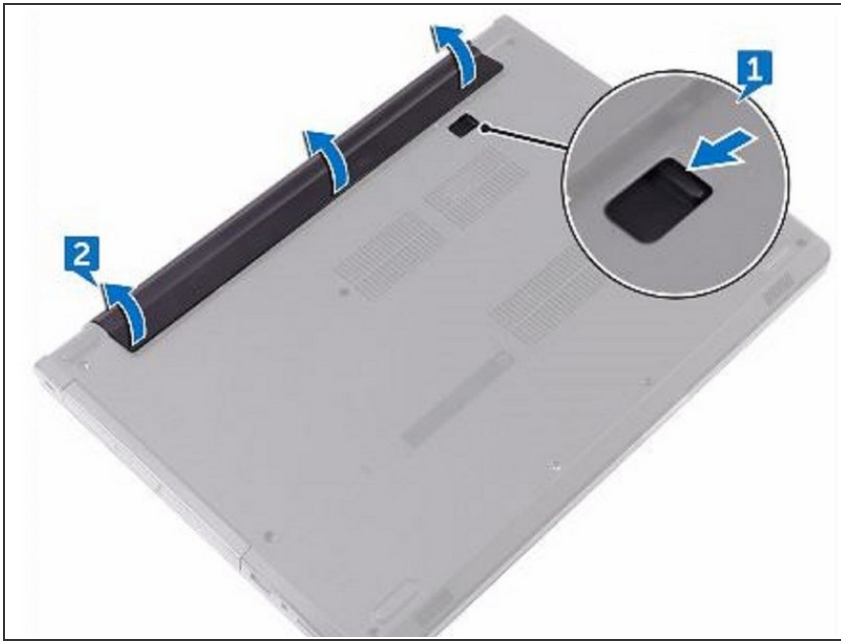

- Turn the computer over and slide the battery latch to the unlock position. You can hear a click sound when the battery is unlocked.

Step 2 — Removing the Battery

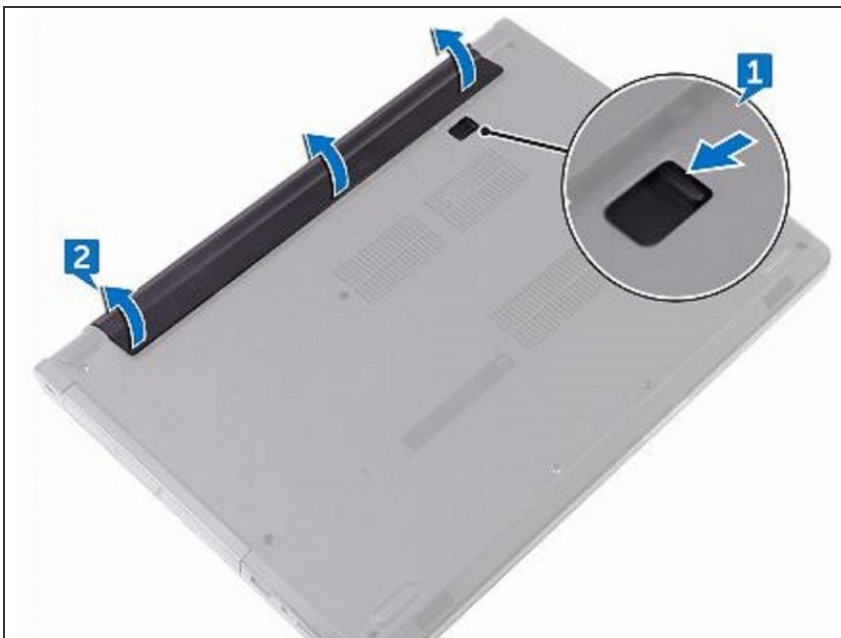

- Using your fingertips, lift the battery at an angle and remove the battery off the computer base.

Step 3 — Grounding the System Board

- Turn the computer over, open the display, and press the power button for five seconds to ground the system board.

Step 4 — Installing the Battery

- Slide the tabs on the **NEW** battery into the slots on the battery bay and snap the battery into place.
