Step 1 — Battery and Service Access Cover

(i) Before beginning, make sure that your computer is turned off and all external power cords are disconnected.

● Close the laptop and turn it over so that the underside is up and the silver battery bay is facing towards you.

Step 2

● The battery locking latch is on the bottom right corner; slide it inward to unlock the battery.

● Slide the battery release latch inwards.

● Pull the battery towards you to remove it.

Step 3

- Slide the service access cover release lever to the right.

- While holding the lever to the right, lift up the laptop's bottom cover gently and remove the cover.
Step 4

- Orient the computer as shown in the picture.

Step 5 — Hard Drive

- Remove the HP product sticker.

⚠ Be careful not to pull up the black hard drive plastic connector with the sticker. Also, removing this sticker will void your warranty.
Step 6

- Locate the hard drive, where the HP Product sticker used to be.

- Locate the hard drive cable, connected to the hard drive.

- Disconnect the hard drive cable by gently pulling upward.

Step 7

- Using a #00 Phillips screwdriver, unscrew and remove the three 2.0 x 4.0 Philips screws holding the hard drive in place.

Step 8

- Use the Mylar Tab located on the right side of the hard drive to pry up the hard drive.

- Remove the hard drive.

Step 9

- Lay the hard drive down with the underside facing up.

- Pull and remove the hard drive pin connector from the hard drive.

To reassemble your device, follow these instructions in reverse order.
