

Samsung Galaxy S10 SIM Card Replacement

This guide shows how to eject the dual card tray to remove or replace the SIM card or microSD card in the Galaxy S10.

Written By: Arthur Shi

INTRODUCTION

The Galaxy S10 has a hybrid SIM card tray. Ejecting this tray allows you to replace the nano SIM card, add a microSD memory card, or add a second nano SIM card (certain models only).

TOOLS:

- [SIM Card Eject Tool](#) (1)
-

Step 1 — Remove the SIM tray

- Insert a SIM card eject tool, SIM eject bit, or a straightened paperclip **into the hole on the SIM tray**, located at the top edge of the phone next to the plastic antenna band.
 - ❗ If you inserted the tool [into the other hole](#), don't worry—the microphone and the ingress seal are mounted out of harm's way.
 - Press firmly to eject the tray.
 - Remove the SIM card tray.
- 🔧 When reinserting the SIM card, ensure that it is in the proper orientation relative to the tray.

To reassemble your device, follow these instructions in reverse order.

After you've completed the repair, [follow this guide](#) to test your repair.
