

DJI Phantom 4 Advanced Remote Controller

Mobile Device Holder Replacement

This guide will show you how to replace the Mobile Device Holder (Smartphone Holder) in your DJI Phantom 4 Advanced Remote Controller.

Written By: Abdullah Muslih Abdul Samad

INTRODUCTION

This guide will demonstrate step by step detailed instructions on how to safely remove and replace the Mobile Device Holder of a DJI Phantom 4 Advanced Remote Controller.

Someone who might want to replace the mobile device holder is because it doesn't clamp the phone properly or it is broken.

TOOLS:

- [Flathead Screwdriver](#) (1)

PARTS:

- [DJI Phantom 4 Pro Remote Controller Mobile Device Holder](#) (1)

Step 1 — Mobile Device Holder

- Remove the 6.7 mm Flathead screw using a Flathead 4 mm screwdriver.

Step 2

- Loosen the bolt that is connected to the body by hand.

Step 3

- Lift up and disconnect the bracket from the body.

Step 4

- Replace the mobile device holder with a new one.

To reassemble your device, follow these instructions in reverse order.
