A photograph of a wooden workbench with various disassembled components of a DJI Osmo Mobile. In the background, there's a black handle with a silver mounting bracket. To the right, a black battery pack is visible. In the foreground, there's a white electronic module with a gold connector, a black plastic frame, and several small screws. A piece of yellowish foam is also present. A white paper with technical drawings and a 'Users Manual' is partially visible. The text 'DJI OSMO MOBILE DISMANTLE AND FIX' is overlaid in large, bold, yellow capital letters.
