INTRODUCTION

In this guide, you will learn how to replace a battery that doesn't charge properly or anymore. This guide will also teach you what the proper and necessary tools are for this repair.

www.iFixit.com

Step 1 — Battery

- Make sure the battery lock switch is in the unlocked position.

- Slide the battery release towards the arrow to disengage the battery.

Step 2

- With one hand, hold the battery release switch.

- Remove the battery with the free hand.
