## INTRODUCTION

In this guide you will learn how to replace the chip set in a Wahl Lithium Ion Trimmer.

---

### TOOLS:

- [64 Bit Driver Kit](#) (1)
  - [Soldering Iron](#) (1)
  - [iFixit Opening Tool](#) (1)
-

## Step 1 — Disassembling of Wahl Lithium Ion Trimmer

- Begin by removing the rubber grip along the handle.

## Step 2

- Remove the screws from the top to take the metal piece and plastic part off.

### Step 3

- Pry open the plastic cover into two separate pieces. The plastic is very durable so don't worry about breaking it upon prying it open.

### Step 4 — Motherboard

- Remove the motor, battery, and motherboard from the plastic casing.

## Step 5

- Remove the white plastic piece and the wires from the motherboard.
- ⓘ If necessary, cut the wires as close to the motherboard as possible so that you can reconnect them to the new motherboard.

## Step 6

- Remove the old motherboard and install the new one. Then, connect the wires and white piece to the new motherboard.

To reassemble your device, follow these instructions in reverse order.
