

Motorola V60c Side Buttons Replacement

Written By: Ryan Kuroiwa

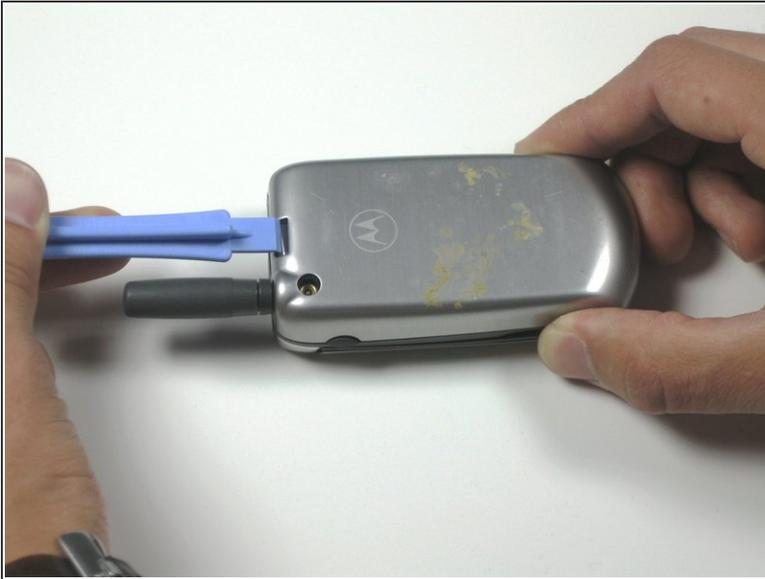

INTRODUCTION

How to replace the side buttons.

TOOLS:

- [iFixit Opening Tools](#) (1)
 - [T6 Torx Screwdriver](#) (1)
-

Step 1 — Battery

- Depress the silver button.
- Pull from top of phone to lift the cover.

Step 2

- Hold battery from both sides at the bottom.
- Push upwards and gently lift to remove.

Step 3 — Side Buttons

- Remove 4 screws from corners using T-6 screwdriver.

ⓘ NOTE: Bottom two screws are gold.

ⓘ NOTE: Make sure screws return to correct place when reassembling.

Step 4

- Use a plastic opening tool to pry up back cover from two side clips.

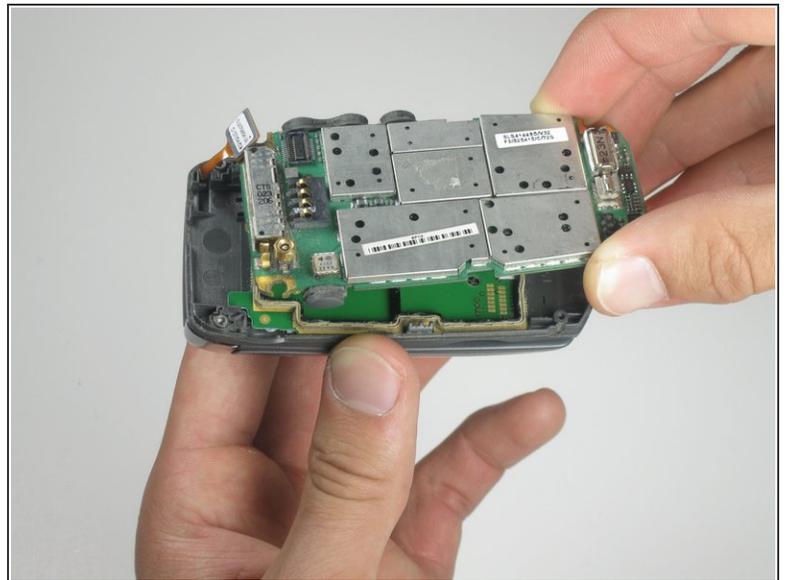

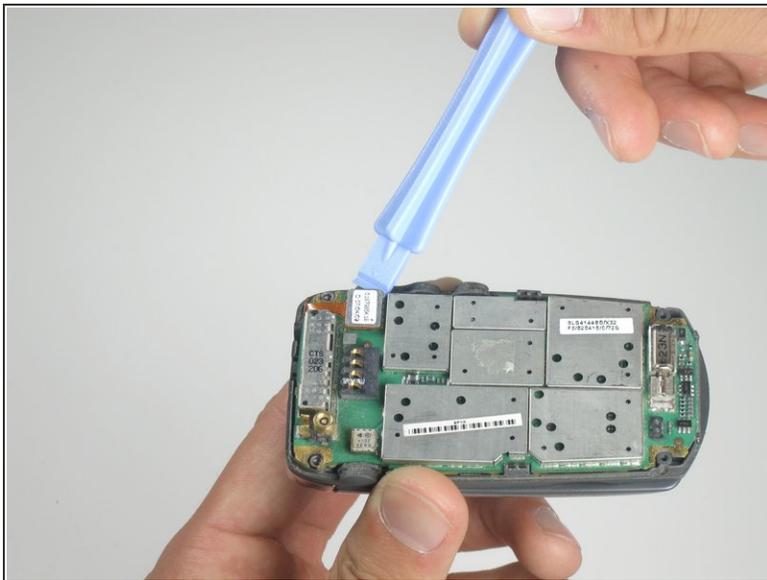

ⓘ NOTE: sticker might be attached to rest of phone.

Step 5

- Remove the back cover.

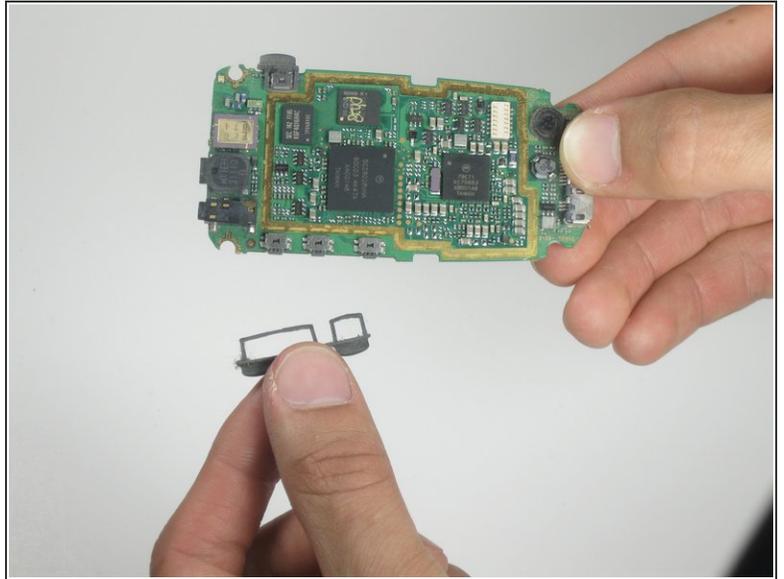

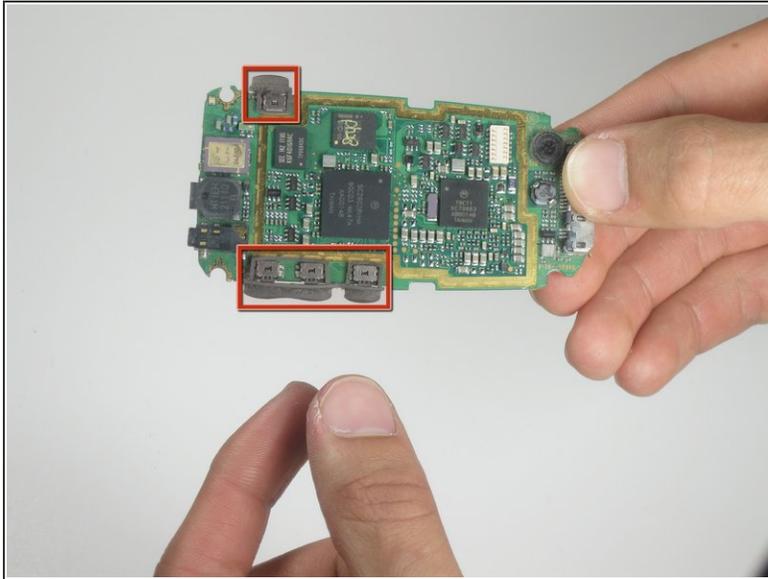

Step 6

- Use a plastic opening tool to gently remove the orange ribbon cable.
- Lift up the main logic board.
- NOTE: Rubber side buttons are not secure and might detach from the main logic board during removal.
