

Altec Lansing inMotion iM9 Battery Replacement

Altec Lansing inMotion iM9 dead battery replacement.

Written By: Kirsten Mork

INTRODUCTION

Battery replacement is quick and easy. You don't need any tools - just four C batteries to replace the old ones.

Step 1 — Battery

- Gently push down on the two tabs at the top of the battery door.
- While holding them down, slowly pull the door towards you.

Step 2

- Once the door is open, use your hand to pull out the four batteries.

To reassemble your device, follow these instructions in reverse order.
