INTRODUCTION

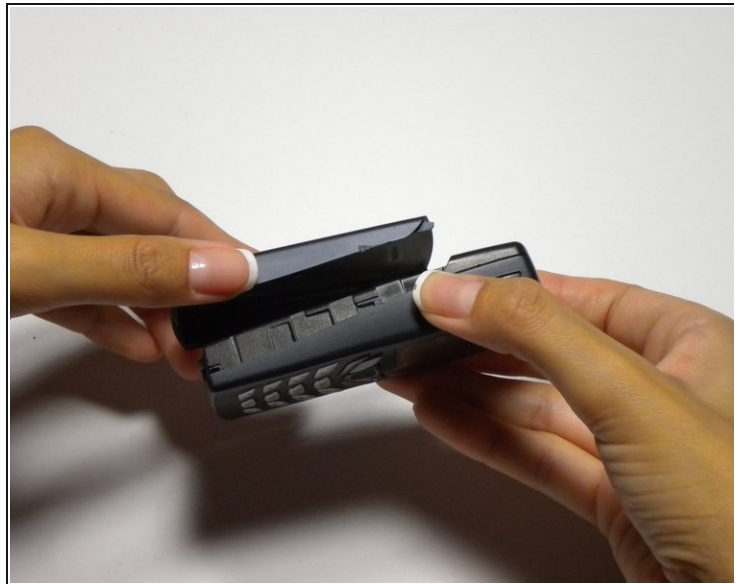

This guide will show how to remove the phone's logic board.

TOOLS:

Spudger (1)

T6 Torx Screwdriver (1)

Step 1 — Battery

- Press the button on the bottom of the rear cover.
- Keep the button pressed while pulling the cover downward to remove the back cover.
- Lift the cover off.

Step 2

- To remove the battery, push it down from the top and pull it out.

Step 3 — Disassembling Nokia 6590i Keypad, Speaker, and Screen Assembly

- Grip the front cover from the bottom.

Step 4

- Lift the front cover off.

Step 5

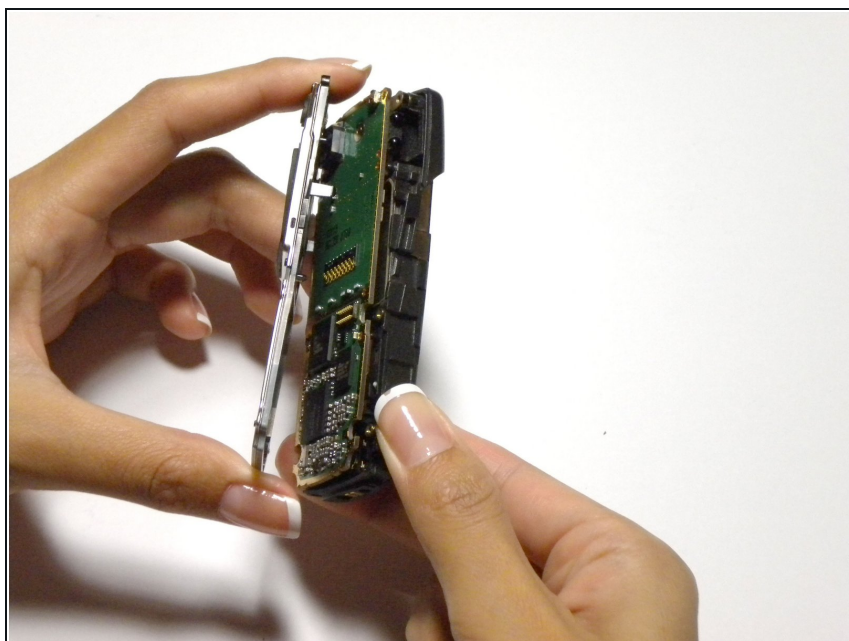

- Remove the six screws using a T6 torx screwdriver.

Step 6

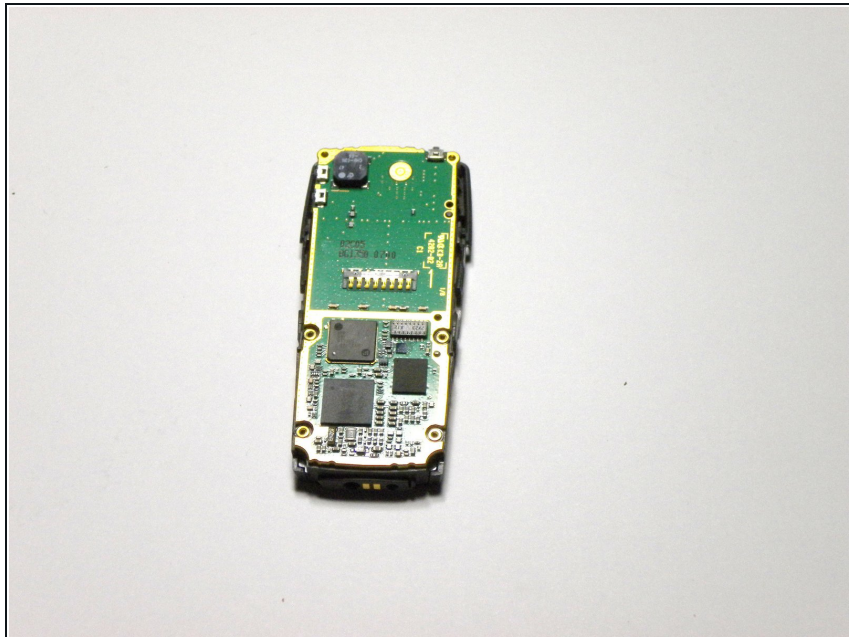

- Insert spudger along edge of assembly and gently lift assembly away from case

Step 7

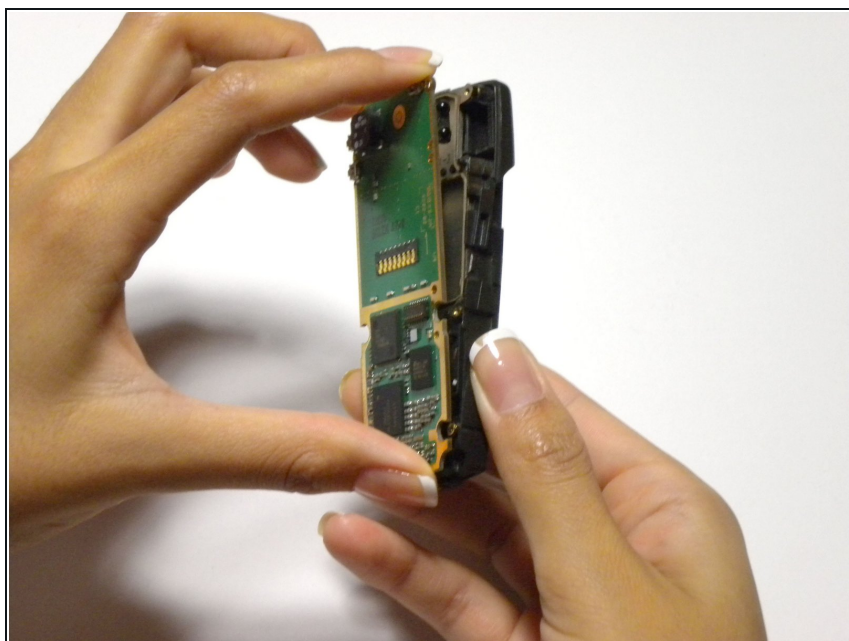

- Remove assembly from phone

Step 8 — Logic Board

- The logic board now sits on top of the phone.

Step 9

- Lift the logic board out of the phone.

To reassemble your device, follow these instructions in reverse order.
