Step 3 — Remove Touchpad cable

- Unclip hold-down

- Remove cable

Step 4 — Disconnect Battery

- Use a spudger to disconnect the plug from the connector by pulling it away from the socket, parallel to the board.

- Bend the connector backwards to prevent it from getting in the way of the motherboard.

Step 5 — Remove Battery Screws

- Remove the 7 battery screws

Step 6 — Remove the Battery

- Remove the battery by pulling up from the side closest to the motherboard

⚠ Be careful of the other cables and the battery cable

ⓘ You will have to lift up just a bit, then slide forward to clear one cable and the back cover screws
