Install LED License Plate Lights

This guide shows you how to install LED license plate lights.

Written By: Eric Wu

INTRODUCTION

Hate the look of halogen bulbs? Get rid of the dull yellow with a new set of LED license plate lights. Installation is very easy and will only take you a few minutes.

🔧 **TOOLS:**
- LED license plate lights (1)

## Step 1 — license plate lights

- Take a flat head screwdriver and remove the license plate housing cover.

Step 2

- Remove the bulb housing.

Step 3

- Remove the stock license plate bulb.

Step 4

- Directly replace with the new LED license plate bulb. If it doesn't light up, flip the LED bulb 180 degrees.
