## Step 1 — Top Panel

⚠ Unplug the DVD player before beginning.

● Remove the three 7.7 mm screws from the back panel using a Phillips #0 screwdriver.
## Step 2

- Turn the DVD player on its side.

- Remove the 7.7 mm screw.

- Flip the DVD player onto its other side.

- Remove the 7.7 mm screw.

## Step 3

- Flip the DVD player over onto its front face.

- Remove the back panel by lifting up and pulling it towards yourself.
## Step 4 — Front Panel

- (i) Flip the DVD player so its top is sitting on your working surface.

- Lift and push away the two tabs located in the middle of the player.

- ⚠ The front panel will not detach during this step, so do not force it.

## Step 5

ⓘ Flip the DVD player on its side.

● Lift and slide forward the single tab on the side.

⚠ The front panel will not detach during this step, so do not force it.

## Step 6

● Grasp the front panel and pull forward to your right to remove it.

To reassemble your device, follow these instructions in reverse order.
